ENTRY OF STEAMERS, -The Treasury Department has authorized the entry of the steamers Aller, Servia and Aurania at New York and the Irinacria at New Orleans when released from local quarantine. Authority to land has been given in the case of all immigrants per Richmond Hill who were booked and assembled prior to September 1, and the same action was taken in the case of the steamers La Bretagne and Majestic. The immigrants per British schooner Goodwill, from Nassau, have been allowed to land at Key West. PERSONAL .- J. Newton Pettis of Peoria, Ill.,

Are what every one seems to be after. An experience of over 40 years (in this same place of business) enables us to offer you RELIABLE, WELL-WEAR-ING SHOES. Our \$3.00. \$3.50 and \$4.00 Shoes are of the latest styles, neat fitting and, to crown all, are handsewed. OUR CALFPATENT LEATHER SHOES at \$4.00 and \$5.00 you must take a look over before buying. They are par excellence.

DEPUTIES AT THE POLLS.

The Attorney General States His View of the Law in a Telegram to Alabama. Attorney General Miller this morning sent a telegram to Gov. Jones of Alabams in answer to his telegram of last night in regard to the duties and respective rights of federal and state officers at today's election, in which he asked A Large Vote Being Cast in the Attorney General, in the interest of peace Page 10 and law, to direct the marshal to be governed in the discharge of his duty by the principles laid down in the decision of Judge Hughes in Gittmer's case and Judge Brewer in the deputy

General's telegram:

DEPARTMENT OF JUSTICE, WASHINGTON, D. C., November 8, 1892. Hon. Thomas G. Jones, Governor, Montgom-

till this morning, and I hasten to answer. I must accept the decisions of the Supreme Court of the United States as the authoritative construction of the United States statutes rather than the decisions of inferior courts. In the Siebold case, 100 United States Reports, on the Siebold case, 100 United States Reports, on Double Court of the United States Reports, on the Siebold case, 100 United States Reports, o the Siebold case, 100 United States Reports, on page 378, you will find the second count of the indictment against Gude and Tucker, which was for obstructing "the full and free attend-ance and presence" and "the full and free ac-cess of the same deputy marshal to the same poll of election contrary" to section 5522, Re-vised Statutes of the United States. The conyised Statutes of the United States. The conviction on this count was upheld by the Supreme Court, thereby sustaining the right of the deputy marshal to free access to the polls.

Judge Hughes' opinion antedates this decision, and Judge Brewer's attention appears not to have been called to the Siebold case.

I must, therefore, take the statute as construed in the Siebold case as the paramount law, and under that decision the right of the marshal and his general and special deputies to "free access to the polls" whenever necessary in order to discharge the duties imposed upon them by less its clean. in order to discharge the duties imposed upon them by law is clear. Moreover, I cannot agree that the state officials are to be the judges as to the necessity for such "free access or presence at such polls."

But while I hold these views I have instructed the marshals that great caution should be used to avoid a conflict, and that unless necessary in the performance of the duties enjoined by the statutes their deputies should not wantonly insist ou remaining in the election booths.

2 insist on remaining in the election booths, but, as officers of the peace, should so far as consistent with the discharge of duty avoid any

science than an account within its proper sphere.

NEW YORK. The Outlook Slightly Better for Cleveland

New York, Nov. 8 .- "Because." This is the reason of the party leaders on both sides for thinking that their candidates will win in today's battle. The politicians are looking at a face through a fog. Some say it has whickers Pennsylvania avenue. In addition to the have said softly to himself, and smiled with and is Harrison's. The prevailing opinion is that it is full and round, like the rising moon, and is Cleveland's. There can be no mistaking the fact that the preponderance of feeling here is is clear and cool, whereupon the smile on his that Cleveland will carry New York that is as far as any definite opinion is formed one way

or the other. MOST PROPLE GREATLY IN DOUBT. A good sized plurality of those who are not are greatly in doubt. The managers of both parties keep up the appearance of confidence with a very good grace, and for the most part When the weather bureau man went home their expressions represent their feelings. It is evident that, as Tom Reed would put it, the and snow today over a large section of the United States. It was in fact raining as far west as Illinois, and snowing and blowing throughout Wisconsin, Minnesota and the

throughout Wisconsin. Minnesota and the Dakotas.

The rain was creeping stealthily on toward New York and New England, where it threatened to make things wet today.

But in the night, between 8 o'clock last evening and 6 o'clock this morning, a great change was wrought. One of those freaks of the clements which sometimes astonishes the natives occurred and worked a miracle.

The storm which had dallied for twenty-four hours over the lake region suddenly swerved to the northeast, got up speed and swept away with almost the speed of a cyclone toward the arctic.

Sure of New 107s. The republicans lead the state as doubtful, but they have strong hopes. That undefinable something, the "feeling in the air," is favorable. If the republicans believed that everything depended on New York state, beyond peradventure, they would be less hopeful.

As to the doubtful states eisewhere opinions are heard on about the same reports that are common property. At both headquarters favorable reports are received from the centers of interest, and the wish is usually the father to the conclusion. The prevailing opinions to the conclusion. The prevailing opin

the Gulf of St. Lawrence and was still moving toward Greeniand at last accounts.

It left in its wake clear weather and brisk winds. In the far northwest the mercury is down to zero, but it is clear overhead and fairly good under foot, barring an inch of snow. Through New York and New England it is cold and clear.

the vote throughout this state should be large, and the republicans count that as encouraging to them. The great anxiety of the leaders is to know where the heavy voting is being done. Chairman Carter claims to have the most positive assurances of a heavy republican vote in the state and says that the system is perin the state and says that the system is perfect for getting all the republican voters to the polls. He claims a heavy enough vote to overcome any majority the democrats can get south of the Harlem bridge. At the same time it is evident that a great part of the republican's

ocrats in many of the democratic thresholds to RUMORS OF TANMANY TREACHERY DISCREDITED After midnight last night there were rumors more favorable to the republicans. This did About 11 o clock he went out for a short drive, and returning at noon received the committee from the Jackson Democratic Association, who called to present resolutions of condolence.

After lunch the President returned to his office. A few bulletins were received during the day and several private telegrams from the day and several private telegrams from finesy and deceiving thing. As far as the resolution of the committee of the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest democracy is at stake in the issue today that the reputation of Tammany for honest de not hold, however. It is so generally believed flimsy and deceiving thing. As far as the republicans are counting on it they are apt to b

disappointed. THE OUTLOOK SLIGHTLY BETTER FOR CLEVELAN As far as anybody knows the outlook is slightly better for Cleveland than for Harrison in this state. The face in the fog is at this hour still indistinct. If it were a life and death matter that I must bet one way I should bet on Cleveland carrying the state. The democrate seem to have worked in perfect harmony and

ONE HUNDRED POLLARS IN stock of the first issue of the GOOD HOPE MINING COMPANY.

For a short time only, when the price will be largely advanced.

The Good Hope mine is located in Custer county. Colorado, near the Bassick, Humboldt, Leavenworth, Ben Eaton and other mines already famous for their large products of rich sliver-bearing ores. The mine is developed by an incline shaft 100 feet deep and by two levels of 50 and 100 feet respectively, along the vein and showing an excellent body of pay ore. The Company has placed 50,000 shares, one-tenth of its stock, upon the market at the low price of 15 cents a there, for the purpose of purchasing machinery and thoroughly equipping the mine for operation, and but a small number of these shares remain unsold. The machinery is now on the ground, the repairs to the shaft are well advanced and the production of paying ore will soon commence.
